To comply with one of HIPPA's requirements, you can request a copy of our Notice of Privacy Practices. This Notice of Privacy Practices contains the information HIPPA requires us to disclose regarding our privacy practices. This includes the addendum effective February 16, 2026 regarding Substance Use Disorder Treatment Information. Some of your health information may be part of a SUD patient record and subject to additional protections under federal law (42 CFR Part 2) governing confidentiality of SUD patient records. If we receive or maintain any information about you from a SUD treatment program that is covered by 42 CFR Part 2 through a general consent you provide to the Part 2 Program to use and disclose the SUD patient record for purposes of treatment, payment or health care operations, we may use and disclose your SUD record for treatment, payment and health care operations purposes as described in this notice. If we receive or maintain your SUD patient record through specific consent you provide to us or another third party, we will use and disclose your SUD patient record only as expressly permitted by you in your consent as provided to us. In no event will we use or disclose your SUD patient record, or testimony that describes the information contained in your SUD patient record, in any civil, criminal administrative proceedings by any Federal, State or local authority, against you, unless authorized by your consent or the order of a court after it provides you a notice of the court order.

Existing Michigan law requires (in addition to our attempt to obtain your written acknowledgement, discussed above) us to obtain your written consent prior to disclosing any of your information except for our disclosures in connection with: a defense to a claim challenging our professional competence; a review entity's functions; a claim for payment of fees; a third party payer's examination of our records; a court order as part of a criminal investigation; an identification of a dead body; a licensure investigation; or a child abuse/neglect investigation.

From time to time it may be necessary for us to make disclosures of your information in connection with your treatment. For example, we may make a referral to or consult with another dentist or other health care professional, provide a specimen to a laboratory for testing or otherwise make disclosures of your information in connection with providing or coordinating your treatment.
